"Spinal Manipulation" or Spinal Adjustment" As the There are certain complications that can occur as muscle strain, cervical myelopathy, disc and verter as oculosympathethetic palsy), costovertebral stracommon complication or complaint following spinar I am aware of these complications, and in order to not limited to my taking a detailed clinical history	pon your body in such a way as to move your joints. This procedure is referred to as the joints in your spine are moved, you may experience a "pop" as part of the process as a result of a spinal manipulation. These compilations include, but are not limited to bral injury, fractures, strains and dislocations, Bernard-Horner's Syndrome (also known ins and separation. Rare complications include, but are not limited to stroke. The most all manipulation is an ache or stiffness at the site of adjustment. These precautions include, but are yof you and examining you for any defect which would cause a complication. This is use of x-ray equipment may pose a risk if you are pregnant. If you are pregnant, you
